WORK EXPERIENCE

Infosys - Technical Analyst

September 2023 - current

Bangalore

- Responsible for Developing and Maintaining multiple Java Backend Applications.

Danske IT and Support Services India Pvt Ltd - Software Engineer

February 2021 - August 2023

Bangalore

- Responsible for developing and maintaining Spring Boot REST-APIs to store and retrieve data quality measures.
- Followed TDD, kept the test coverage high (>90%), kept the code maintainable, flexible to change, and took deliberate measures to NOT let the speed of development go down with time.
- Written more than 30K lines of code in the process.
- Refactored and Optimized an existing Spring Boot REST-API. Improved the response time by 40% and raised the test coverage from 75% to 94%.
- Learnt and used kubernetes to analyze and debug issues during CI/CD setup on azure devops and openshift.

HeyCloudy - Data Analyst Intern

March 2020 - August 2020

Remote

- Worked on Data Analysis of App log files, customer segmentation, KPI database management and dashboard creation to understand user behavior and maximize time on site.
- Clustered the users into different categories by calculating data points like recency, frequency, hours spent, days visited, the number of stories heard, and so on for each user. One of the marketing campaigns later used this information.

EDUCATION

Vellore Institute of Technology - B.Tech., Computer Science and Engineering

July 2017 - May 2021

Chennai

SKILLS
